Outdoor wireless base station solar

Overview

What are the advantages of eseecloud base station?

Advantages of The Base Station: 1) Simple Operation: The base station is factory-paired with the solar camera (s), just download the "EseeCloud" APP, and scan the QR code on the base station, images from solar outdoor cameras (up to 4) will be automatically displayed on the APP. 2) Strong & Stable Signal:.

Why should you choose TP-Link outdoor wireless base station?

With its centralized management platform and high degree of flexibility, it is the ideal choice for providing point-to-point, point-to-multipoint, and outdoor Wi-Fi coverage. The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users.

Does the indoor base station need a power source?

The indoor base station still needs to be connected to a power source. It can be connected to the internet using either a network cable or Wi-Fi. *IP66 protection rating test was performed by SGS-CSTC Standards Technical Services (Shanghai) Co., Ltd, with test report number: SHES230901721471.

How to charge solar wireless security camera?

Warm Tips: 1. Please charge the solar wireless security camera with the included power adapter for 5 hours BEFORE USING for the first time. 2. You can Insert a TF card (NOT INCLUDED) into the TF card If needed. 3. USB charge is OPTIONAL. 4. This wireless solar security camera outdoor ONLY SUPPORT 2.4G Wifi connection, NOT CONNECT 5G Wifi.
