

# **Palestine emergency energy storage power supply production**

## Overview

---

Is the energy sector in Palestine a unique situation?

The energy sector, specifically electricity in the State of Palestine, is in a unique situation.

Who supplies Palestinian electricity?

The Israel Electric Corporation (IEC) supplies most of the electricity in the Palestinian territories. PETL is the sole buyer of imported electricity for distribution in West Bank Areas A and B and in the Gaza Strip, which in turn supplies the electricity to the six Palestinian distribution companies.

Where does Palestinian electricity come from?

Palestinians are heavily dependent on imported electricity from the Israeli networks: 87 percent of electricity consumed is secured from Israel and around 4 percent from Egypt and Jordan. The remaining 9 percent is produced locally in Gaza and used to fuel the region's power plant on a continuous basis.

How can Israel improve energy security in the West Bank & Gaza?

es Israeli approval to build new lines and increase supply capacity. Israeli imports can be reduced by supporting renewable technology with appropriate commercial arrangements for the public and private sectors, and a political will to enhance the sustainability of the energy sector. To address energy security in the West Bank and Gaza S
