# Paraguay's leading energy storage power station company

## Overview

---

Paraguay is developing several innovative energy storage projects: A joint venture by PASH Global and ERIH Holdings plans to develop utility-scale solar power facilities and battery energy storage systems<sup>1</sup>. The Asuncion Gravity Energy Storage Construction<sup>& #32;</sup> project uses 50-ton concrete blocks to store energy,<sup>& #32;</sup> capable of powering 100,000 homes<sup>2</sup>. A shared energy storage model in Asuncion combines battery storage systems with smart grid technology,<sup>& #32;</sup> significantly reducing electricity bills for local businesses<sup>3</sup>. There are also proposals for an <sup>& quot;</sup>Energy Island<sup>& quot;</sup><sup>& #32;</sup> in the Paraguay River,<sup>& #32;</sup> which would integrate floating solar panels with underwater storage tanks<sup>4</sup>. These projects highlight Paraguay's commitment to advancing renewable energy and energy storage solutions.
