

# Paraguay s new energy storage policy

## Overview

---

What is Paraguay's new energy policy?

The New Energy Policy aims to consolidate Paraguay's position as a key player in regional energy integration, through overarching goals to strengthen the national electricity sector and key subsectors such as: electricity, binational hydroelectric entities, bioenergy, renewable alternative sources, and hydrocarbons.

Will Paraguay reshape its energy landscape by 2050?

The Paraguayan government unveiled a transformative energy policy to reshape the country's energy landscape by 2050. Signed into action by President Santiago Peña, this initiative sets the stage for Paraguay to diversify its energy generation and embrace sustainable alternatives such as solar energy, hydrogen fuel, and biofuels.

Should Paraguay rely on natural gas?

By relying on natural gas in the short term, Paraguay can reduce its dependence on coal and oil while ramping up its investments in solar, hydrogen, and bioenergy. Paraguay's ambitious energy policy is a bold step toward a more sustainable future, but it also comes with challenges.

Can Paraguay use natural gas as a transitional energy source?

In addition to its focus on renewables, Paraguay is also looking to natural gas as a transitional energy source. The country's new energy policy includes a project to integrate natural gas into its energy matrix. This would provide a reliable alternative to hydrocarbons while renewable technologies continue to scale.

## Paraguay s new energy storage policy

### [40MWh! Two investors plan to deploy solar](#)

Dec 25, 2023 · In Paraguay's "Power Generation Master Plan 2021-2040," seven projects will deploy solar power facilities with battery storage

...

### [40MWh! Two investors plan to deploy solar + energy storage ...](#)

Dec 25, 2023 · In Paraguay's "Power Generation Master Plan 2021-2040," seven projects will deploy solar power facilities with battery storage systems. Three larger storage projects with a ...

### [Paraguay Industrial Park Energy Storage System](#)

At a time when global emphasis is on decarbonization and emission reduction, and countries are discussing climate change at COP26, Paraguay must take advantage of the potential of being ...

### [Paraguay s new energy storage applications.](#)
