

Pm solar high quality inverter

Overview

What is a PM series microinverter?

The PM Series Microinverter is the ideal micro-inverter for balcony power plants, converting PV power from balcony power plants or roof installations in line with grid requirements and feeds it directly into the domestic grid, where it is immediately used.

What is a micro inverter balcony power station?

Aluminum alloy body in high pressure oxidation process with good corrosion and oxidation resistance. The micro inverter waterproof according to IP67 to prevent rain drops from entering. Inverter balcony power station is plug and play, so it can be installed without professional training or electrician.

How to connect solar inverter to MC4 cable?

Connect the solar model to the MC-4 cable with two branch outputs. PV inverter has MPPT function, intelligent WiFi module and is equipped with a new generation of smart home WiFi monitoring system that can achieve intelligent online surveillance. Operating ambient temp.
