Podgorica Energy Storage Power Station Operation Plan

Overview

What is the operation strategy of energy storage power station?

Therefore, under the new energy situation, studying the operation strategy of energy storage power station in the power market environment is the need of the current development of energy storage technology, and it is also the urgent need of energy and power technology in the new situation .

What is a clearing price of a province's power spot market?

The clearing price of a province's power spot market during trial operation is used as the basic data of the example to verify the operating income of the energy storage power station, which is helpful to improve the operating economy of the energy storage power station .

Why is the power system undergoing an unprecedented transformation?

Abstract: With the development of the new situation of traditional energy and environmental protection, the power system is undergoing an unprecedented transformation .
