

Port Louis professional solar container lithium battery bms manufacturer

Overview

What is a battery management system (BMS)?

Why?

A Battery Management System (BMS) is an intelligent component of a battery pack responsible for advanced monitoring and management. It is the brain behind the battery and plays a critical role in its levels of safety, performance, charge rates, and longevity.

What is inside a voltaplex BMS battery management system?

Inside every Voltaplex BMS battery management system is a purpose-built core. This core contains microcontrollers, precision voltage sensors, temperature monitors, balancing circuits, and communication protocols tailored to you and your industry's needs.

What is voltaplex BMS?

Industrial Energy Storage: Voltaplex's BMS maintains safety and longevity in backup systems and off-grid power units by monitoring high-capacity lithium-ion battery management systems with scalable, remote diagnostics.

Aerospace and Defense: Our BMS design provides rugged, high-reliability power for drones, avionics, and tactical gear.

Why should you choose a BMS module & custom BMS board?

Our BMS modules and custom BMS boards are backed by deep technical expertise and hands-on collaboration to ensure ultimate quality and a commitment to safety. Each system includes embedded protocols that adhere to ISO 26262 and UL standards.
