

Port Moresby solar container battery Construction Project

Overview

Can PNG Power install a solar PV system in Port Moresby?

PNG Power has installed a 150kW rooftop solar PV system at the Mineral Resources Authority (MRA) office in Mining Haus, Konedobu, Port Moresby. This installation was done through PNG Power's two-megawatt rooftop solar PV pilot programme in the Port Moresby grid.

How much does Port Moresby power station cost?

The Project is designed to be capable of staged expansion to approximately 175 MW with the cost for the initial 58 MW plant being ~US\$100 million. This investment is underpinned by a long term Power Purchase Agreement (PPA) with PNG Power Limited. The Port Moresby Power Station during construction in October 2018.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.
