

Power size and price of solar panels of various brands

Overview

How much does a SunPower solar panel cost?

SunPower backs its panels with a 25-year warranty, ensuring at least 92% power output over the warranty period. However, this quality comes at a premium. Prices range from \$3.50 to \$4.00 per watt, meaning a typical 6kW system will cost \$21,000 to \$24,000 before federal tax credits or local incentives.

How are solar panels ranked?

To rank our solar panels, we primarily looked at power output per square foot. This metric is the best way to directly compare solar panels side-by-side since they can vary so much in size. Solar panels are like most other electronic equipment: They operate most efficiently in cool temperatures (ideally around 25° C or 77° F).

What are the best residential solar panels?
