

Price of inverter generator

Overview

Learn typical inverter generator costs by size, features, wattage, and fuel type. Includes price ranges for camping, RV, and home backup generators. How much does an inverter Generator cost?

Prices range from about \$350 for a modest option that can power a few key appliances to more than \$5,000 for a permanently installed model that turns on automatically and can handle everything in your home. CR members can read on for a list of top-rated inverter generators from each of the four size categories.

What is an inverter generator?

The Inverter Generator is classified under our comprehensive Gasoline Generator range. Gasoline generators in the industrial equipment & components sector generally have power output ranging from X to Y kilowatts, catering to various needs. Verify the specific power requirements of your application to select the suitable gasoline generator model.

How many watts can an inverter generator produce?

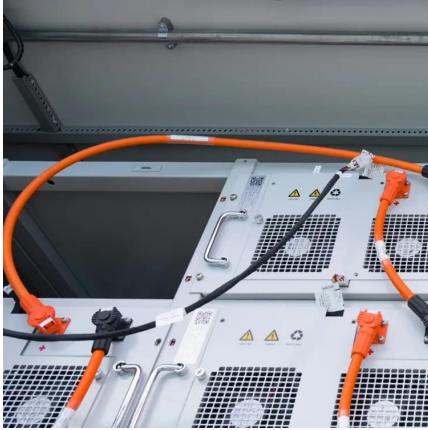

Inverter generators in this size range, which are 220-volt capable, can produce 5,000 watts or more. This means they can power most home appliances and, when hooked up to your electrical panel via a transfer switch or interlock device, enable you to run hardwired devices like a well pump or a water heater.

What is the best inverter generator?

The Honda EU7000 is the best inverter generator thanks to its stellar versatility, efficiency, and low-noise performance. Providing 7,000 starting watts, you can use it for anything from camping to RVs, to even basic home backup during an emergency. No matter what you use it for, you'll barely hear its 52-60 decibels of volume.
