

# **Qatar s autonomous solar power generation system**

## Overview

---

How many solar power plants are there in Qatar?

Qatar has since built two more solar plants in the country: the Ras Laffan and Mesaieed solar plants, which combined generate 875 MW. The newest Dukhan solar power plant is set to be one of the largest in the world. It will be developed in two phases, reaching a total electricity generation capacity of 2,000 MW by mid-2029.

How will Qatar's Solar power plant work?

The plant will double Qatar's solar generation capacity once completed. This will facilitate in the supply of up to 30% of Qatar's total peak electricity demand. Moreover, it will use a solar tracker system and inverters, capable of operating in high temperatures.

What is Qatar's first large-scale solar power plant?

The country's first large-scale solar power plant, Al-Kharsaah Solar PV Power Plant, covers an area of 10 square kilometres. The 800 megawatt (MW) plant was inaugurated in October 2022 to support Qatar's electricity demand for FIFA World Cup Qatar 2022™. You might also like: Qatar to build one of the world's largest solar power plants.

Will Qatar build a solar plant in Dukhan?

Qatar invests in renewable energy, building a solar plant in Dukhan. (Credit: QatarEnergy) Qatar's future is looking solar with a new solar plant project on the way. The country's first large-scale solar power plant, Al-Kharsaah Solar PV Power Plant, covers an area of 10 square kilometres.
