

LLSE CONTAINERS

Ranking of telesolar container communication stations in Finland

Overview

Who dominates the telecommunications market in Finland?

The country has a competitive telecommunications market dominated by three key players: Elisa, Telia, and DNA. Elisa held the largest share of revenue from fixed-line, mobile, TV, and radio operations, at 37 percent in 2023. Telia Finland, part of Telia Company since 2017, followed closely, while DNA held 23 percent of the market.

Will Finland become a world leader in communications networks by 2025?

In 2019 the Ministry of Transport and Communications, responsible for the operation of transport and communications markets and critical communications networks, launched a digital infrastructure strategy with the goal of turning Finland into the world leader in communications networks by 2025.

Why do international companies use Finland as a test laboratory?

As a result, many international companies use Finland as a test laboratory for experimental launches of new products and services before going global. In Finland, the government sets regulatory incentives and funds basic research.

How does Finland perform in digital technology integration?

Finland was the top performer in the integration of digital technologies, and more than 60 percent of enterprises in Finland buy sophisticated or intermediate cloud services. Finland scored more than 95 points (out of 100) in online availability and scored close to 100 in mobile friendliness.
