

Recommended manufacturers of bifacial solar panels in the Middle East

Overview

Who makes bifacial solar panels?

JA Solar, Jinko, Trina, Canadian Solar can be listed among most popular bifacial solar panels manufacturers. Solar experts see great potential in bifacial modules and expect them to become more and more popular, which means we can expect more and more brands to start making them.

How many bifacial panel manufacturers are there?

There are 344 bifacial panel manufacturing companies listed below in the 'Bifacial -- Solar Panel Manufacturers - High Efficiency Crystalline' title.

What are bifacial solar panels?

Bifacial solar panels (modules) have solar cells on both sides of the unit, with glass on the front and a clear fluoropolymer sheet on the back, allowing them to produce up to 25% more energy than the typical monofacial solar panel widely used today. Bifacial modules can be used with standard racking and inverters for any type of solar array.

Which bifacial solar panels are best?

Canadian Solar is a semi-Chinese brand with manufacturing sites in Asia which explains its moderate prices. We can also recommend taking a look at Silfab bifacial solar panels: this Canadian brand provides the most efficient panels in NA and gives solid warranties for its products.
