

# **San Diego solar container communication station Energy Management System Installation Company**

## Overview

---

How much does San Diego solar cost?

the first time. Dirk and his company exceeded all of my expectations. The price was phenomenal, the installation was flawless, and the system operates better than expected. We used to pay between \$200-\$300 per month on electricity. Our bill is now anywhere from \$0-\$10. Thanks San Diego Solar.

Who is HES solar?

Established in 2001 when a privately-owned solar power plant was a project not a proven investment, HES Solar's innovative approach to converting solar technology advancements into customer benefits has built one of the most highly-respected and successful solar design and installation companies in Southern California.
