# Solar Air Conditioning Series

## Overview

---

What is a solar air conditioner?

Deye's innovative solar air conditioner series represents a breakthrough in sustainable cooling technology, combining eco-friendly operation with powerful performance. Our solar air conditioners are designed to significantly reduce electricity costs while providing reliable cooling even in the most challenging environments.

What are the different types of solar-powered air conditioners?

The three main types of solar-powered air conditioners are direct current (DC) solar air conditioners, alternating current (AC) solar air conditioners, and hybrid solar air conditioners. Direct and alternating current refers to the way energy flows: DC only flows in one direction, while AC changes direction often.

What are the best solar-powered air conditioners?

Whether you want to go entirely off-grid or invest in a smaller solar air unit, SolAir World has some of the best solar-powered AC solutions available. The company offers hybrid solar air conditioners as well as 100% off-grid systems.

What is a hybrid solar air conditioner?

Hybrid solar air conditioners: Hybrid solar air conditioners use a combination of electricity from the grid and solar power to reduce the overall cooling costs of your space or whole home. More specifically, an AC/DC hybrid system uses grid electricity to run the unit's fans, but solar energy to run the compressor.
