Solar Glass Professional Edition

Overview

What is Guardian Sunguard glass?

Our Guardian SunGuard glass products offer different levels of solar control and light transmission, and various aesthetic options to suit many applications. Solar control performance is achieved through the use of a very thin, transparent, and permanent coating that helps limit the solar energy entering inside.

Is Schott® Solar glass 0787 certified?

We are certified SCHOTT® Solar Glass 0787 is space-qualified to ECSS-E-ST-20-08C standard and complies with EU-RoHS and EU-REACH standards. We are also ISO 9001- and 14001-certified.

What type of glass is best for solar panels?

On a clear-over-clear double-glazed configuration, SNE 50 coated glass provides 48% visible light transmittance and 0.25 solar heat gain coefficient – making it suitable for projects in many regions. SunGuard SN 54 low-E coated glass strikes a balance between color neutrality and solar control – so your project can blend in or make a statement.

What is mitrex solar glass?

Let the light in with Mitrex Solar Glass — a powerhouse in disguise, where photovoltaics meet limitless design, where color meets clarity. You're not just choosing glass; you're choosing a future where sustainability is clear as day. Where photovoltaics meet limitless design, where color meets clarity.
