

Solar charging panel output 80 watts

Overview

How much does a 80 watt solar panel weigh?

Powerness 80 watt solar panel is lightweight and weighs only 7 lbs. It's also foldable and easy for you to carry to around. The folded dimensions are 20*21 inches only. Maximum Power: 80W, Power Voltage: 18V, Power Current: 4.5A.

What is an 80 watt solar module?

An 80 watt solar module is a high efficiency monocrystalline solar module, as in the GP-PV-80M Solar Module from Go Power!, which provides outstanding performance and cost-effective solar power for residential, commercial and industrial applications.

How much power does a powerness solar panel produce?

Get up to 80W Power Output! The Powerness 80 watt solar panel is designed to produce maximum power at all time. It's made by premium monocrystalline silicon solar cells, and has a conversion efficiency of 23%. Charge your devices faster than ever. The Powerness solar panel is also built-in USB-A USB output port and Type-C output cable.

What is powerness 80 watt solar panel?

With the built-in kickstand, you can adjust the best angle to get more power, additionally, the surface of Powerness 80 watt solar panel is made by long-lasting ETFE material, making it more durable, better light transmittance, crack-proof and easy to clean. Powerness 80 watt solar panel is lightweight and weighs only 7 lbs.
