

Solar container battery replacement box

Overview

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.

What are the best solar battery boxes and enclosures?

Unbound Solar offers durable solar battery boxes and enclosures that are ideal for off-grid or grid-tie with battery backup systems. Browse our selection today. Our Solar Battery Guide will help you size your battery bank properly and keep things running smoothly by ensuring a well-designed system that protects your batteries.

What should I connect between my solar panel and the battery box?

You cannot connect your solar panels directly to the battery box, as the current could be too strong and damage your battery. To prevent this, you need to ensure there is a solar regulator connected between the solar panel and the battery box.
