## Overview

---

What is CIMC Yangzhou base battery swapping station/new energy vehicle containerized power station?

CIMC Yangzhou Base Battery Swapping Station/New Energy Vehicle Containerized Power Station consists of several container modules, suitable with various brand new energy cars and battery systems, integrated with battery storage, battery charging, car moving, and internet communication system.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why do you need a solar container?

Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.
