

Solar container energy storage system factory in Toronto

Overview

Is Canadian Solar a sustainable company?

2024 SUSTAINABILITY REPORT As a global leading renewable energy company, Canadian Solar aims to power the world with solar energy and to create a cleaner Earth for future generations. From 2017 to 2024, Canadian Solar achieved reductions in GHG emissions, energy, water, and waste intensities of 54%, 37%, 75%, and 53%, respectively.

Who is Canadian Solar?

Over the past 24 years, Canadian Solar has successfully delivered over 15 GW of premium quality, solar photovoltaic modules to customers. Since entering the project development business in 2010, Canadian Solar has developed, built, and connected over 12 GWp of solar power projects and 6 GWh of battery energy storage projects across the world.

What are CSI solar and Recurrent Energy?

The Company has two business segments: CSI Solar and Recurrent Energy. CSI Solar consists of solar module and battery energy storage manufacturing, and delivery of total system solutions, including inverters, solar system kits, and EPC (engineering, procurement, and construction) services.

How many GWh of battery energy storage solutions has e-storage deployed?

To date, e-STORAGE has deployed more than 7 GWh of battery energy storage solutions across the United States, Canada, the United Kingdom, and China. Our team is the heart of our success, and we invite ambitious individuals to join us in shaping the future of energy storage solutions.
