Solar container lithium battery pack in Rotterdam the Netherlands

Overview

Why is SK TES opening a battery recycling facility in Rotterdam?

SK tes (earlier known as TES) has opened a battery recycling facility in the Netherlands as part of its strategy of developing a global network of such sites. The new plant in Rotterdam is being called a significant milestone towards providing closed-loop solutions essential for the burgeoning electric vehicle (EV) industry.

Why is Rotterdam launching a new battery recycling plant?

The new plant in Rotterdam is being called a significant milestone towards providing closed-loop solutions essential for the burgeoning electric vehicle (EV) industry. With the demand for battery production materials outstripping supply, it is a circular investment in the future of battery recycling.

Where can SK TES recycle EV batteries?

In addition to Rotterdam, SK tes is developing battery recycling capacity in Southern and Eastern Europe. In Asia, SK tes recently completed an EV battery recycling plant in Yancheng, China and plans to complete an EV waste battery recycling operation in Newcastle, Australia, later this year.

What's new at the EV recycling facility in Rotterdam?

We proudly hosted the grand opening ceremony of its new state-of-the-art battery recycling facility in Rotterdam. The event marked a significant milestone in the company's commitment to advancing sustainable solutions in the electric vehicle (EV) industry.
