

Solar energy storage device installed in Madrid

Overview

Will Solaria buy a battery energy storage system in Spain?

Madrid-based renewables developer Solaria has announced the purchase of 1,102 MWh of battery energy storage systems, which will be installed across six of its projects in Spain. The company said that it had allocated more than EUR 80 million (\$93.4 million) for the purchase.

Does Spain need energy storage?

Additionally, Spain is strengthening policies to support the growth of energy storage. The country aims to deploy 22 GW of energy storage by 2030 and 50 GW by 2050. Currently, the total installed capacity of energy storage in Spain—covering planned, under-construction, and completed projects—stands at about 20 GW.

Will Madrid become a central base for energy storage systems?

“Our strategy is very clear: to turn Madrid into our central base for energy storage systems. From there, we’ll provide agile and specialized support to clients across Europe and Latin America,” Gattoni explained.

How much photovoltaic capacity will Spain have by 2030?

1. The Ministry of Ecolog The Spanish National Energy and Climate Plan (PNIEC) sets a target of 76 GW of photovoltaic capacity by 2030, including 19 GWac from self-consumption and 57 GWac from large-scale projects.
