

Solar lighting system installation in New York USA

Overview

Batteries have become increasingly popular because they take an intermittent energy source like solar and turn it into a reliable and consistent supply of electricity. We recommend getting a solar batter.

Do solar panels work in New York?

Solar panels still work great in cold temperatures and can withstand the harsh winters New Yorkers get upstate. With 4 to 4.5 peak sun hours each day, New York gets plenty of sun for your solar system to produce energy, but depending on where you are, you may need a few more panels than other places to meet all of your energy needs.

Who is NY State solar?

NY State Solar has been one of the leaders in working through the New York State Energy and Research Authority (NYSERDA) to use available state-backed financing programs to help New York's homeowners finance and install rooftop solar systems on their homes.

How much do solar panels cost in NYC?

The cost of solar panels in NYC will come down to the system size, panel type, and installation complexities. Residential systems can vary in price from \$20,000 upwards before any incentives or rebates. To get the exact price, you can receive a quote from us and find out about the solar incentives available in NYC.

Is NY State solar a good solar installer?

Due to our experience, NY State Solar has been designated by NYSERDA as a Gold Quality Installer, making us one of the top 4% of solar installers for quality, based on their detailed inspections of all solar installations statewide! NY State Solar is proud to be an authorized, quality NYSERDA contractor.
