

# **Solar module projects under construction in Paris**

## Overview

---

What will das Solar do in France?

Looking ahead, DAS Solar plans to establish additional facilities for ingot and wafer production in France. Alongside partner companies, it also aims to localize production of key solar materials and components—including EVA/POE, cables, junction boxes, aluminum frames, and silver paste—forming a comprehensive “Made in France” solar supply chain.

Why is Das solar launching a French factory?

Marking the 60th anniversary of diplomatic relations between China and France, the launch of DAS Solar’s French factory is more than just an investment—it is a symbol of global cooperation and a model of synergy between Chinese innovation and European manufacturing.

Does Das solar have a European Strategy?

DAS Solar Chairman and CEO Mr. Liu Yong said: as part of its broader European strategy, DAS Solar has already delivered landmark projects across France, the Netherlands, and Greece—including the largest floating solar power station in Europe.

Where is Das solar based?

Mandeure, Apr. 23, 2025 — DAS Solar, a leader in N-type PV technology, has officially broken ground on its first overseas 3GW module manufacturing facility in Mandeure, France. As a key milestone in the company’s global strategy, this project demonstrates DAS Solar’s firm commitment to Europe’s energy transition and sustainable development.
