

Solar panel skylight and price

Overview

How much does it cost to install a solar skylight?

The cost to install a solar tube (solar skylight) is between \$500-\$1,000, depending on the chosen professional installation service. Solar tubes are more affordable compared to traditional skylights, which average around \$2,000. If you prefer to handle installation yourself, consider purchasing a kit that costs between \$200-\$400.
