

Solar panels from the EU solar plant

Overview

What is the EU solar manufacturing map?

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment.

What is the European solar PV industry alliance (ESIA)?

The European Solar PV Industry Alliance (ESIA) aims to facilitate and de-risk the scaling up of Europe's solar PV manufacturing to cover 30 GW of domestic manufacturing capacities by 2025, thus supporting the EU's decarbonization targets and at the same time ensuring long-term competitiveness of the EU industries.

How many companies in Europe manufacture solar PV modules?

Today, at least 38 companies are active in Europe manufacturing the equipment and machinery that produces vital steps of the solar PV module supply chain, including cells, ingots, wafers, and polysilicon. EU Clean Industrial Deal: Opportunity for renewables and European manufacturing.

Can European solar production underpin resilience?

A new market analysis from SolarPower Europe highlights the potential of European solar production to underpin the resilience of the European sector. SolarPower Europe has published a new report mapping Europe's solar PV module production equipment capacity.

Solar panels from the EU solar plant

[Made in Europe: Can the EU Reclaim Solar Panel Production?](#)

Discover the state of solar panel manufacturing in Europe, the challenges posed by imports, and what EU countries are doing to rebuild local production. Learn how European-made solar can ...

[Europe's Solar Powerhouse: Top Solar Panel Manufacturers ...](#)

As Europe accelerates its renewable energy transition, solar panel manufacturers are playing Formula 1-level innovation games. Let's explore how solar panels manufacturers Europe are ...

[Solar power plants: from panels to the grid](#)

2 days ago · This generates a direct current (DC). Power conversion and transmission Although solar panels generate direct current, household and industrial grids require alternating current. ...

[EU's New Solar Rules: 30% Local Manufacturing Mandate ...](#)

Feb 6, 2025 · PVTIME - Under its Net Zero Industry Act, the EU has introduced new legislation imposing a 30% local manufacturing requirement for solar components by 2026. The

rules aim ...

[Solar Panel Regulations in the European Union: An Overview](#)

Mar 27, 2025 · Solar panels imported or manufactured in the European Union are subject to various regulations, directives and standards. Ensuring compliance requires that the solar ...

Solar energy in the EU

Oct 31, 2022 · EU measures to boost solar energy include making the installation of solar panels on the rooftops of new buildings obligatory within a specific timeframe, streamlining permitting ...

[Towards 30 GW of PV Manufacturing in Europe](#)

Nov 7, 2023 · About the ESIA The European Solar PV Industry Alliance (ESIA) aims to facilitate and de-risk the scaling up of Europe's solar PV manufacturing to cover 30 GW of domestic ...

[SolarPower Europe: High potential of European PV ...](#)

May 23, 2025 · A new market analysis from SolarPower Europe highlights the potential of European solar production to underpin the resilience of the European sector.

[Trina Solar to invest in Holosolis PV gigafactory in France](#)

1 day ago · Trina Solar and Holosolis signed a strategic cooperation agreement at the recent France-China summit, consolidating the Chinese manufacturer's role as a key partner in a ...
