# Solar power solutions factory in Lithuania

## Overview

---

Does Lithuania have a solar power plant?

An 850 kW solar power plant covers the building's facade and roof. It is also the first building in Lithuania to incorporate a solar power plant of this size into its facade. The IVC building is not connected to the city's heating network. The heating function is provided by 80 geothermal boreholes dug to a depth of 130 metres.

Where are SoliTek solar panels made?

In 2014, the SoliTek brand was launched, and production of glass-glass solar modules began. The company expanded into solar energy projects and installations in Lithuania by 2018. In 2020, SoliTek shifted towards battery manufacturing for solar systems, establishing partnerships for a factory in Vilnius.

Who is SoliTek solar?

Founded in 2009 as Baltic Solar Solutions and Baltic Solar Energy, SoliTek initially focused on solar cell research and production. In 2014, the SoliTek brand was launched, and production of glass-glass solar modules began. The company expanded into solar energy projects and installations in Lithuania by 2018.

When did SoliTek start manufacturing solar batteries?

In 2020, SoliTek shifted towards battery manufacturing for solar systems, establishing partnerships for a factory in Vilnius. In 2023, SoliTek introduced residential and C&I solar batteries, and by 2024, it launched the first automated battery production line in the Baltics.
