# **Solar powered devices factory in Denmark**

## Overview

---

Does Denmark have a solar market?

Denmark has achieved more than 1000 MW of PV installation by December 2019 and is expected to increase its solar market by a CAGR of more than 10% to install 4900 MW, by 2030, according to the Danish government successfully. In November 2018, Danish Energy Agency announced the tender results of PV projects.

How many solar PV installations are there in Denmark?

The latest version can be found below and shows a total expansion of solar PV in Denmark of more than 3.3 GW as of 1 July 2023. The installations consist of both large installations in the open country as well as smaller installations, mainly on rooftop. Solar PV Statistics 2nd quarter 2023 (Only available in Danish).

Who is Danish renewables?

Danish Renewables is a sustainable energy company founded in 2017 by founder Esben Christensen in Copenhagen, Denmark, with a primary focus on the solar and wind energy sectors.

How does the factory use solar energy?

The factory uses solar energy and employs multiple energy saving approaches, including reusing the wasted energy during the production. Our efficient robot technology and modern finishing process ensures the highest level of precision and consistent quality products with minimal environmental impact
