

Solar water pump installation in Singapore

Overview

Where can I install a solar-powered water pump?

You can install a solar-powered water pump at any place with sunlight available because sunlight is the source of solar energy. It has fewer accessories and easy-to-install options. Some water pumps come with built-in solar panels and batteries along with a control box. You can also connect solar-powered water pumps with the existing solar system.

How to promote solar powered water pumping systems in India?

Therefore, to promote solar powered water pumping systems across India, our Indian government has launched the PM-KUSUM (Pradhan Mantri Kisan Urja Suraksha evam Utthaan Mahabhiyan) scheme. Under this scheme, central government is providing up to 90% subsidy on solar water pumps through MNRE department.
