South African green building solar curtain wall brand

Overview

Why was sunpal used for a curtain wall?

SUNPAL was used for a curtain wall as it will not break even when hit by a person or an object such as a basketball. SUNPAL was used in a variety of stunning colors to create a façade that you cannot miss - during the day and at night. SUNPAL panels were used to create a curtain wall that decorates the façade of this beautiful home.

Why was sunpal used for a swimming pool façade?

SUNPAL was used for this façade to enable natural light to enter the building. A SUNPAL façade was specified to allow enough light into the pool without blinding the swimmers. SUNPAL was used for a curtain wall as it will not break even when hit by a person or an object such as a basketball.

What is a sunpal façade?

A SUNPAL façade was specified to allow enough light into the pool without blinding the swimmers. SUNPAL was used for a curtain wall as it will not break even when hit by a person or an object such as a basketball. SUNPAL was used in a variety of stunning colors to create a façade that you cannot miss - during the day and at night.

What is a Palram polycarbonate façade?

Designers can select panels that are as clear as glass, translucent and light-diffusing, or completely opaque. Palram polycarbonate façade systems grace the exteriors of many buildings, including commercial centers, sports venues, health and education facilities, and residential structures around the world.
