Who is IBC Solar South Africa?

IBC SOLAR South Africa supplies premium solar PV and storage solutions and technical services to the residential installer and C&I EPC market. From solar panels and inverters to batteries, mounting, EV chargers, and monitoring systems, our portfolio includes trusted global brands and proven local expertise to power every application.

Who are VAC solar?

VAC Solar specialise in the design, development and construction of containerised solar PV plants. The deployment of containerised PV plants is a fast and convenient method of deploying a new system in remote locations where brick and mortar buildings are not available.

Where can solar energy be used in Africa?

In agriculture, the Dube TradePort IDZ in Durban, the Cape Span and the Rooibos Ltd. plants in the Western Cape where solar electricity is used to provide renewable energy in the production of agricultural supplies with lowered carbon emissions.

What is a containerised PV plant?

The deployment of containerised PV plants is a fast and convenient method of deploying a new system in remote locations where brick and mortar buildings are not available. These plants can be built and commissioned off site and reduces the time from order placement to energy production significantly.
