

Southeast Asia Photovoltaic Energy Storage Container 600kW

Overview

What is China Energy Construction - Terra photovoltaic storage project?

Recently, China Energy Construction Co., Ltd. has made another major breakthrough in the international new energy market, and successfully signed the largest EPC (design, procurement, construction) project of integrated photovoltaic and storage power station in Southeast Asia with Manila Electric Power Company - Terra photovoltaic storage project.

What is China energy construction in Southeast Asia?

As another masterpiece of China Energy Construction in Southeast Asia, the Terra PV storage project will make full use of the abundant local solar energy resources to provide a stable power supply of no less than 84 hours a week and 600 MW through the joint operation of photovoltaic power plants and energy storage systems.

Where is the Terra photovoltaic storage project located?

It is understood that the Terra photovoltaic storage project is located in the new Ecija province, 100 kilometers north of Manila, with a total scale of 3.5GW photovoltaic + 4.5GWh energy storage, of which the first phase of the western project includes 1.4GW photovoltaic + 3.3GWh energy storage.

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.
