

Southern Europe Industrial solar Module Project

Overview

What is the European solar PV industry alliance (ESIA)?

The European Solar PV Industry Alliance (ESIA) aims to facilitate and de-risk the scaling up of Europe's solar PV manufacturing to cover 30 GW of domestic manufacturing capacities by 2025, thus supporting the EU's decarbonization targets and at the same time ensuring long-term competitiveness of the EU industries.

What is Solarpower Europe?

SolarPower Europe is the award-winning link between policymakers and the solar PV value chain. Get to know the SolarPower Europe team working to transform the European energy system. Get to know everything about solar power. Interested in joining SolarPower Europe?

Why should we build a truly European solar industry?

Rebuilding a truly European solar industry is one of the most valuable insurances against energy dependency. This is a matter of commitment and investment throughout the entire supply chain - especially in those parts where Europe is already behind today.

What is the EU solar energy strategy?

The EU Solar Energy Strategy includes an initiative to address the shortage of skilled workers in the entire photovoltaic sector in Europe.
