

Standard battery cabinet multiple

Overview

How many batteries can a battery cabinet support?

The battery cabinets are available in five different mechanical dimensions. They can facilitate multiple combinations of batteries, up to 63 battery blocks, connected in series and parallel configurations with positive, negative, and mid-point poles. The battery cabinets also support a maximum Direct Current (DC) voltage of 800Vdc.

Does Legrand offer a universal battery cabinet?

from 10kVA up to 800kVA power range. Legrand offers universal battery cabinets for all three-phase Legrand Uninterruptible Power Supply (UPS) models ranging from 10kVA to 800kVA power output. They are designed to accommodate standard Valve Regulated Lead Acid (VRLA) batteries with a capacity range of 24Ah to 105Ah (C10).

What battery sizes are available?

Standard sizes are available in 32 and 40 battery configurations to fit multiple battery sizes from a wide range of manufacturers including NorthStar Battery, East Penn (Deka), EnerSys and C&D Technologies, or we can customize a battery cabinet to fit your specific needs.

How many lithium battery cabinets can be connected in parallel?

A maximum of 15 SmartLi 2.0 lithium battery cabinets can be connected in parallel. When multiple cabinets are connected in parallel, only the master cabinet has an LCD. Easy capacity expansion: Batteries can be added along with load increase by stages. New and old battery cabinets can be connected in parallel.
