

# **Stockholm Energy Battery Storage Industry**

## Overview

---

How important is the battery storage industry in Sweden?

The Battery Storage industry in Sweden presents several key considerations for those researching companies in this field. First, regulatory frameworks are crucial, as Sweden's commitment to sustainability and renewable energy mandates compliance with strict environmental standards.

How many large-scale battery storage systems are there in Sweden?

14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region. Developer and optimiser Ingrid Capacity and energy storage owner-operator BW ESS have been working in partnership to deliver 14 large-scale BESS projects throughout Sweden's grid, situated in electricity price areas SE3 and SE4.

Where are the battery energy storage systems located in Sweden?

The inauguration of the 14 battery energy storage system (BESS) projects last week was attended by the minister for climate and the environment in Sweden, Romina Pourmokhtari. They are located in the SE3 and SE4 electricity price areas of the Swedish grid, the most southern of its four areas (SE1-SE4).

Is Elektra the largest battery storage project in Sweden?

However, neither of these projects had been completed and energised when RES launched the Elektra energy storage project in late April, a 20 MW/20 MWh project billed as Sweden's largest battery storage project at the time.
