

# **Stockholm substation energy storage power supply bidding**

## Overview

---

What does the Hall substation upgrade mean for Sweden?

This substation upgrade is the foundation for future development and marks a significant milestone in the ongoing efforts to modernize and expand Sweden's power infrastructure. The Hall substation, supplied by Linxon, replaces an aging substation that had reached the end of its operational lifespan.

Why did linxon install a 400 kV Hall substation?

Linxon successfully commissions the new 400 kV Hall substation near Stockholm, Sweden, enhancing grid reliability and supporting modernization efforts. Discover how this substation upgrade strengthens Sweden's power infrastructure.

Where is the new 400 kV Hall substation located?

Stockholm, Sweden – The new 400 kV Hall substation, located just outside Södertälje, 25 kilometers south of Stockholm, has been successfully handed over from Linxon to Svenska kraftnät.

What is the background to grid renewal in stock-Holms Ström?

The background to grid renewal in Stock-holms Ström is a Government commission from 2004. This commissioned Svenska kraftnät to draw up a proposal for the design of the future power grid in the Stockholm region.
