

Tendering for wind power at low price for solar container communication stations

Overview

Does South Korea have a wind & solar energy contract?

South Korea's Ministry of Trade, Industry and Energy (MOTIE) has opened a tender for 2.8 GW of wind and solar energy capacity, 1.5 GW of which is being sought through offshore wind.

Will tariff-based competitive bidding boost renewable capacity?

The Ministry of Power has introduced new guidelines for the tariff-based competitive bidding process for procurement power from grid-connected wind power projects to boost renewable capacity and meet the distribution licensee's renewable purchase obligation (RPO).

What is a tender roadmap & how does it work?

Unveiled in August this year, the roadmap sets up the tender (s) as a two-stage process, with the first stage assessing non-price criteria and the second stage evaluating price attributes.

When will tenders be released in 2025?

Initially planned to be held in the fourth quarter of each year, the tenders from 2025 have been moved to the second quarter of each year with a notice of an additional tender to be released in the fourth quarter of each year, if needed.
