

Thailand puts energy storage power station into operation

Overview

Could a sodium-ion battery be a new business opportunity in Thailand?

The Federation of Thai Industries' Renewable Energy Industry Club sees potential in sodium-ion battery (SIB) production as an alternative to lithium-ion batteries. SIBs, made from rock salt, could offer a new business opportunity given Thailand's abundant rock salt reserves.

What is Thailand's 2024 Power Development Plan?

Thailand's 2024 power development plan (PDP) aims to increase renewable energy use, highlighting the importance of BESS alongside solar panels and wind turbines. This could create new business opportunities for entrepreneurs if prices decrease or new technologies emerge for stationary batteries.

What is a battery energy storage system?

Battery energy storage systems (BESS) are essential for buildings and renewable power generation facilities to ensure uninterrupted electricity supply. Renewable sources like solar and wind power are intermittent, and influenced by weather patterns. BESS mitigates this issue by storing electricity for future use.

What is pumped storage hydropower (PSH)?

This effort aims to stabilize the clean energy supply, supplementing solar and wind power, which are subject to weather fluctuations. Egat's feasibility study focuses on implementing pumped storage hydropower (PSH) technology at the dams. Deputy Governor Tawatchai Sumranwanich explains that PSH involves two reservoirs at different elevations.

Thailand puts energy storage power station into operation

[Thailand to add 3 more large-scale pumped storage ...](#)

Nov 11, 2024 · Thailand plans to build pumped storage hydropower plants at Chulabhorn Dam. (Photo: EGAT) To mitigate the impact of intermittent wind and solar power generation, the ...

[Bangkok Energy Storage Power Station Project Powering Thailand ...](#)

SunContainer Innovations - As Bangkok races toward its 2030 renewable energy targets, the Bangkok Energy Storage Power Station Project emerges as a game-changer. This article ...

[Wenergy Launches Green Energy Storage Project in Thailand, ...](#)

Chiang Mai, Thailand - September 5, 2025 - Wenergy, a leader in energy storage solutions, is proud to announce the successful launch of its Battery Energy Storage System (BESS) project ...

[EGAT plans three pumped storage power plants in Thailand](#)

May 13, 2025 · The Electricity Generating Authority of Thailand (EGAT) has announced plans to develop three pumped storage power plants (PSPPs) at existing dams in Chaiyaphum,

...

[Thailand's renewable energy plan boosts battery storage ...](#)

Oct 9, 2024 · Electric vehicles (EVs) are widely known for their battery power but batteries are also crucial for buildings, factories, and power plants using renewable energy. They provide ...

[LONGi's Thailand Koh Lipe PV Project Begins Operation: ...](#)

Feb 11, 2025 · LONGi's off-grid photovoltaic power station on Koh Lipe Island in southern Thailand has begun operation, marking the island's shift to a "solar+storage" system, replacing ...

[Hydropower Battery: Future Alternative for Energy Security](#)

This project aims to serve as an energy storage system to ensure the security of the country's power system and support the transition toward rising renewable energy in the future. Thailand ...

Thailand's Egat to Transform Hydropower Dams into Energy Storage

1 day ago · The Electricity Generating Authority of Thailand (Egat) plans to convert three hydropower dams into massive energy storage systems with a 90-billion-baht investment. This ...

Thailand to build three PSPPs with combined capacity of 2.5 ...

Nov 15, 2024 · Pumped storage power plants are power plants equipped with two reservoirs with an elevation difference: in the hours of low load, cheaper electricity from the common grid is ...
