

Timor-Leste energy storage export companies

Overview

Santos, Finder Energy, Sunda Energy and HTS Exploration are among several companies progressing energy and carbon capture and storage (CCS) projects in the Timor Sea, south of Timor Leste. Does Timor-Leste have offshore energy exploration?

Onshore and offshore energy exploration is progressing in Timor-Leste. Australian explorer Timor Resources is the operator of 2 onshore exploration blocks in partnership with Timor Gap. Timor Gap is Timor Leste's state-owned energy company, established to manage Timor-Leste's national energy resources and enhance national capacity.

Which companies are developing projects in the Timor Sea?

Santos, Finder Energy, Sunda Energy and HTS Exploration are among several companies progressing energy and carbon capture and storage (CCS) projects in the Timor Sea, south of Timor Leste. Significant opportunities for marine and supply services are forecast, pending development of projects in the Timor Sea.

What is the main export product of Timor-Leste?

Coffee has been the main export product of Timor-Leste since the mid-nineteenth century. Among others, Ermela District is the most productive area for coffee beans, accounting for around 60% (or about 5,000 tons) of the total production in the country.

Who owns Timor Gap?

Australian explorer Timor Resources is the operator of 2 onshore exploration blocks in partnership with Timor Gap. Timor Gap is Timor Leste's state-owned energy company, established to manage Timor-Leste's national energy resources and enhance national capacity. Timor Gap is involved in several upstream and downstream projects.
