

Tunisia Communications Wireless Base Station Work

Overview

Is Tunisia using WiFi 6e?

On December 10, 2024, The Tunisian Ministry of Communication Technologies officially authorized the use of WiFi 6E frequency bands (5925–6425 MHz) for RLAN (WiFi) services, allowing for faster and more efficient wireless communication.

Does Tunisia have a cellular network?

Tunisia meets its WTO telecom service sector commitments and provides full market access and national treatment for foreign telecom service providers. The cellular market opened to foreign competition in the early 2000s; however, no U.S. carrier has actively sought cellular network licenses from the GOT.

Does Tunisia have a high-speed mobile network?

Through its four telecom licenses for fixed lines and the availability of 3G and 4G (and planned 5G) mobile phone technology, Tunisia has made progress toward high-speed mobile internet and high-capacity data transmission, creating opportunities for U.S. technology sales.

Who is Tunisie Telecom?

Tunisie Telecom is Tunisia's leading provider of international internet connectivity. The company manages three sub-sea cables; one of them, a 112-mile fiber-optic cable, is owned and operated by Tunisie Telecom and connects the city of Kelibia in Tunisia with the Italian city of Mazara.
