# Tuvalu Solar System Application

## Overview

---

What is the Tuvalu solar power project?

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti's peak demand, and 3% of the Tuvalu Electricity Corporation's annual household consumption.

Does Tuvalu need solar energy?

In response, Tuvalu has prioritized renewable energy as a dual strategy for mitigating emissions and adapting to climate impacts. Solar energy, in particular, is well-suited to Tuvalu's tropical climate, which offers abundant sunlight throughout the year.

How much energy does Tuvalu use a year?

Like many Small Island Developing States (SIDS), Tuvalu has been heavily reliant on imported fuel for its diesel-based power generation system. Through this new FSPV system 174.2 megawatts per hour of electricity will be generated each year, meeting two percent of Funafuti's annual energy demand.

What is Tuvalu's energy supply?

In 2021, fossil fuels accounted for 96 percent of Tuvalu's total energy supply, while solar and other renewable energy sources accounted for 4 percent. Tuvalu's economy is therefore highly vulnerable to fuel prices' volatility, which is why it is critical to find alternative sources of energy for the country's electricity supply.

## Tuvalu Solar System Application

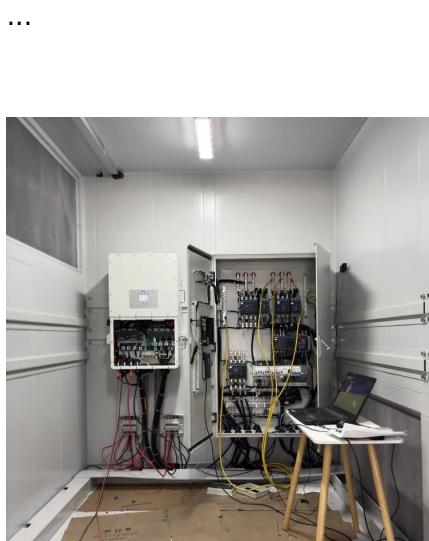

### [Tuvalu solar intelligent power generation system](#)

TEC has set a vision of "Powering Tuvalu with Renewable Resources" and this align well with the Tuvalu Government set target of 100% renewable energy by 2025. All the islands of Tuvalu ...

### [Floating Solar Photovoltaic System Installation Completed In Tuvalu](#)

Sep 4, 2023 · The installation of Tuvalu's inaugural Floating Solar Photovoltaic (FSPV) system has been successfully completed, with this cutting-edge system seeing 184 solar panels

### [Harnessing the Sun: Tuvalu's Journey Toward Sustainable Solar ...](#)

Jul 29, 2025 · Tuvalu, a vulnerable Pacific Island nation, combats climate change threats like rising sea levels and fossil fuel dependency through sustainable solar energy solutions. This

### [Floating Solar Photovoltaic System Installation Completed in Tuvalu](#)

Aug 31, 2023 · The project aims to facilitate the development and utilisation of feasible renewable energy resources and applications of energy efficient technologies in Tuvalu. The

disruptive ...

### ADB commissions 500 kW solar project with 2 MWh of storage in Tuvalu

Dec 4, 2024 · The Asian Development Bank (ADB) has commissioned a 500 kW solar rooftop project in Tuvalu's capital, Funafuti, along with a 2 MWh battery energy storage system (BESS).

### The Tuvalu Solar Power Project

The e 8, through the Tuvalu Solar Power Project, the island state's first grid-connected solar power system, provided the expertise and financial support to help trigger such a shift towards ...
