

# **Tuvalu solar new solar container battery**

## Overview

---

Will Tuvalu achieve 100% renewables by 2030?

The pacific island nation of Tuvalu is on track to achieving its goal of 100% renewables by 2030, with the recent commissioning of a 500 kW rooftop solar project and 2 MWh battery energy storage system in it's capital Funafuti. Image: United Nations Development Programme Pacific Office.

What is the Tuvalu solar power project?

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti 's peak demand, and 3% of the Tuvalu Electricity Corporation's annual household consumption.

Does Tuvalu need solar energy?

In response, Tuvalu has prioritized renewable energy as a dual strategy for mitigating emissions and adapting to climate impacts. Solar energy, in particular, is well-suited to Tuvalu's tropical climate, which offers abundant sunlight throughout the year.

What challenges does Tuvalu face?

Tuvalu's geographic and economic context presents unique challenges for energy provision. The nation's dispersed islands, with Funafuti as the capital and most populated atoll, complicate energy distribution and infrastructure development.
