

# **UAE Mobile Energy Storage Container Hybrid Financing**

## Overview

---

What are the advantages of a hybrid power plant?

Due to such characteristics as high reliability, long service life with the possibility of extended warranty, high energy efficiency of CATL battery systems, hybrid power plants based on renewable energy sources with battery cells for its storage can accelerate the energy transition to decarbonized methods of electricity generation.

What are CATL battery-powered energy storage systems?

CATL battery-powered energy storage systems provide energy storage and flexibility in power generation. Instant utilization and energy output due to battery electrochemical technology and the technology of electricity production using gas-piston units can be combined into a single most efficient system.

Is Dubai building a 250MW PHES plant?

Dubai Electricity and Water Authority (DEWA), a utility in the neighbouring Emirate of Dubai, is building a 250MW PHES plant for a reported 2024 operation.

Will the UAE deploy 300mw/300mw of Bess capacity by 2026?

It follows EWEC's recommendation made this time last year that the UAE should deploy 300MW/300MWh of BESS capacity by 2026. It didn't reveal when it hoped the 400MW (MWh capacity undisclosed) would come online, so it's not clear whether this is part of a longer-term target or whether its forecasted needs have increased.
