

UPS battery cabinet material

Overview

Given the weight and environmental demands, UPS battery cabinets are constructed from high-strength materials—most commonly cold-rolled steel or galvanized steel—for maximum durability and load-bearing capacity. What makes a good UPS battery cabinet?

It is important to find a UPS Battery Cabinet that can easily be configured and adapted to match your UPS Systems; plus your UPS Battery Cabinet should be flexible enough so that it can either be upgraded or fit into any future new projects. Features should offer space-saving features that will fit into the most compact UPS designs.

Does unified power offer battery cabinets?

Unified Power offers a complete line of battery cabinets for both UPS and Telecom Applications. These cabinets can be configured to match OEM cabinets and offer a competitive option for system upgrades or new projects. Features Space saving foot print is the industry's most compact design.

What are Arimon battery cabinets made of?

All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors. Arimon UPS backup battery cabinets offer breaker or fuse protection up to 800 Amps.

Does Arimon have a backup battery cabinet?

Arimon UPS backup battery cabinets offer breaker or fuse protection up to 800 Amps. UPS circuit breaker options include auxiliary contacts, undervoltage release (UVR) and shunt trip circuit breakers. All battery cabinets ship factory assembled and fully tested.
