# UPS battery cabinet power

## Overview

---

What does a battery cabinet power?

Battery cabinets are designed to hold batteries used to power an uninterruptible power supply (UPS) system. In the event of a power disruption or outage, the UPS system ensures that your devices continue to operate from the energy stored in the batteries in the battery cabinet.

What is the battery capacity of the UPS system?

The UPS system uses batteries in the battery cabinet to provide power during disruptions. The battery capacity is 34.6 kWh. The system is lithium-ion based and can support up to 5 MW in parallel.

How to choose UPS battery cabinets?

Furthermore, the cabinets need to offer removable hinged doors so that the UPS system can be easily accessed. Doors need to be locked for safety and security. UPS Battery Cabinets have to be designed to house most front terminal batteries. Your UPS Battery Cabinets should have removable side panels so that cables can be easily installed.

Which battery cabinets are ready to ship?

Ready to Ship. Battery cabinets from diverse manufacturers APC, Toshiba, CC Power, Eaton, Powerware, Mitsubishi, Narada, and Salicru. We stock new and used battery cabinets in support of our energy storage packages, ups backup systems and rental UPS. Speak to a power expert to match up with your specific requirements. Read more. Have any questions?
