Uninterruptible power supply equipment for Aarhus transportation in Denmark

Overview

Does the port of Aarhus have a shore power plant?

The Port of Aarhus has an onshore power plant on its way to container ships, which will be the first of its kind in Denmark. And a new agreement stipulates that it must be supplied by Danish PowerCon. We are pleased that we can once again collaborate with PowerCon to establish a shore power facility.

Why do people rely on uninterruptible power supplies in public transport networks?

Billions of people rely on uninterruptible power supplies in public transport networks every day to keep passengers safe and goods moving. AEG Power Solutions offers a full range of innovative and reliable power solutions that support all kinds of transportation infrastructure around the globe.

Where is Denmark's New shore power facility located?

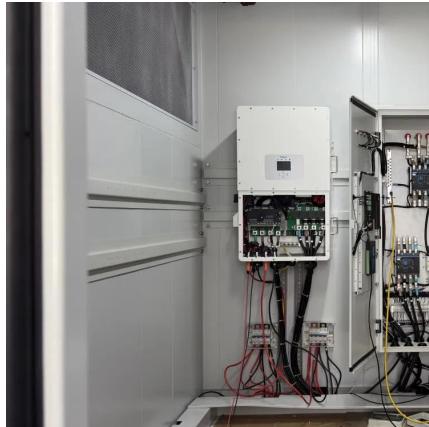

The facility will be located at the container terminal in Aarhus, Denmark's largest. 2024 marked the first full year of operation for the shore power facility at the cruise terminal, with 68 percent of the cruise ships docking there using shore power. The facility for container ships, however, will be a little different.

Which European ports will offer shore power for container ships by 2030?

Ports in Aarhus, Gothenburg, Bremerhaven, and Stockholm will all offer shore power for container ships by 2030 as part of the “OPS Network” project. The project is supported by the EU fund “Connecting Europe Facilities” with a grant of 18.8 million euros.
