

Uzbekistan Super Electric Bus

Overview

How many electric buses are there in Pakistan?

In Uzbekistan, the capital city Tashkent has received 202 new electric buses, while in Pakistan, 400 e-buses have entered service across 19 cities in Punjab Province. Tashkent's latest batch of 202 Yutong buses forms part of a wider national programme to modernize public transport and cut emissions.

How many Yutong buses are there in Tashkent?

Tashkent's latest batch of 202 Yutong buses forms part of a wider national programme to modernize public transport and cut emissions. The city plans to make half of its bus fleet electric by 2030, with 1,200 e-buses scheduled for delivery by the end of 2026. In the same city also BYD was awarded a wide tender.

Why is Yutong launching a new energy bus in Pakistan?

In Pakistan, Yutong has completed the largest single order for new energy buses in the country's history — 400 vehicles, including E12PRO and E9 models, now in operation across Punjab. The delivery supports Pakistan's target of 30% electric vehicle adoption by 2030.

How many e-buses will Yutong deliver in October 2025?

Yutong has announced two major deliveries in October 2025 involving two Asia's emerging e-mobility markets. In Uzbekistan, the capital city Tashkent has received 202 new electric buses, while in Pakistan, 400 e-buses have entered service across 19 cities in Punjab Province.
