

# **Uzbekistan mobile power storage vehicle equipment**

## Overview

---

### What is Uzbekistan's First Energy Storage Project?

Installed with Sungrow's cutting-edge liquid-cooled ESS PowerTitan 2.0, this facility marks Uzbekistan's first energy storage project and stands as the largest of its kind in Central Asia. The project will play a pivotal role in driving the region's energy transition forward and setting a sustainable precedent.

### Why is Uzbekistan promoting the development of electric vehicles?

The government of Uzbekistan deeply recognizes the importance of new energy electric vehicles and charging piles in reducing carbon emissions and promoting the transformation of energy structure, and therefore has introduced a series of preferential policies to promote the development of this industry.

### How many EV charging stations are there in Uzbekistan?

Meanwhile, the charging pile market has also seen explosive growth. As of 2022, about 100 EV charging stations are already in operation in Uzbekistan, and the government plans to increase the number of charging stations to 2,500 by 2025, starting from December 1, 2023, when large-scale construction of charging stations will begin.

### Is BYD a success in Uzbekistan?

BYD's electric car Song Plus is a breakout success in Uzbekistan, with sales of more than 2,000 units. Meanwhile, the charging pile market has also seen explosive growth.
