

Vientiane solar container communication station Wind Power Equipment

Overview

What is Vietnam's first cross-border wind energy initiative?

It is the region's first cross-border wind energy initiative. Electricity generated will be exported to Vietnam under a 25-year power purchase agreement with Vietnam Electricity (EVN), delivered through a 500-kilovolt transmission line.

How big is Laos wind farm?

The wind farm features turbines with tower heights of 140 and 110 meters, placed based on wind data collected over an eight-year period from 2015 to 2023. Laos to launch 600MW Monsoon Wind Project by end of 2025, Southeast Asia's largest wind farm, exporting power to Vietnam.

Which country has the largest wind farm in Southeast Asia?

(Photo: Monsoon Wind Asia) Laos is set to launch its first wind farm, and the largest in Southeast Asia, by the end of the year, with all 133 turbines now fully installed. The 600-megawatt Monsoon Wind Project, valued at USD 950 million, spans 68,000 hectares across Dak Cheung district in Sekong province and Sanxay district in Attapeu Province.

Who owns monsoon wind power?

The project is being developed by Impact Energy Asia Development Co., Ltd., which first signed a memorandum of understanding with the Lao government in 2011 to evaluate its feasibility. It officially moved forward in 2022 after receiving a concession agreement, and now operates under Monsoon Wind Power Company Limited.
