Overview

What is the voltage range of INVT inverters?

INVT's series of universal and medium voltage inverters have a voltage range from 220 V to 10 kV. They control synchronous and asynchronous motors and have built-in servos, with capacities ranging from 0.4 kW to 10000 kW.

Who manufactures inTV products?

INVT's products are manufactured on CE standard for the European market and UL standard for the North American market. All processes from design to production, release of INVT products are strictly 100% inspected and certified by TÜV SÜD system. INVT uses components and technology of Germany.

Why are inverters important?

Inverters are typically not the first thing you think of when thinking about going solar, but they're an important part of every installation. How do you configure inverters in your system?
